KONICA MINOLTA

OFFERING
THE SKILLS
TO WIN

bizhub 361/421/501

The workflow fleet for black & white

Office system bizhub 361/421/501

Universally efficient
black & white all-rounders

Busy office environments, especially in mid-sized to larger companies, frequently experience bottlenecks when it comes to effective document production. With the bizhub 361, bizhub 421 and bizhub 501, Konica Minolta now offers the skills to win by presenting three b/w multifunctionals that take this pressure off and are particularly suited for seamless integration into existing bizhub workflows.

- At 36, 42 and 50 pages per minute all three are perfectly capable of tackling larger volumes in departments of any size, such as general administration, accounting, personnel, procurement etc. Their innovative InfoLine design makes the bizhub 361/421/501 an attractive addition to any office. Operation is simple and intuitive via the large LCD display with colour touch-screen.

- Thanks to a compact yet highly modular finisher, the bizhub 361/421/501 impress with true finishing versatility. Their finisher integrates into the system and provides generous functionality ranging from sorting and stapling via punching to the creation of complete centre-stapled and folded booklets. Upgraded with a mailbin unit, output can be separated into prints, copies and incoming faxes. As a more straightforward output alternative, a simple job separator is also available.

- Just like any bizhub system, the bizhub 361/421/501 offer the Konica Minolta "skills to win" – they integrate perfectly into the bizhub line-up, feature the latest imaging, controller and security technology, come equipped with a range of applications, and show consideration for the environment.

→ **Workflow options**

Black&White	
Copying	Scanning — TWAIN network, Scan-to-SMB, Scan-to-Box/Personal Box, Scan-to-eMail, Scan-to-FTP, Scan-to-USB
USB, Local/network, PCL/PS, Black&White	
Printing	
Reprint, Sharing Box-to-Box, Distribution	
Box	
	Faxing — IP-Fax, i-Fax, PC-Fax, SIP-Fax, Super G3 Fax

Advanced multifunctionals
the professional approach to the office

→ Powerful technology

Konica Minolta's latest powerful Emperon™ controller ensures the seamless integration of the bizhub 361/421/501 into any company network. Providing Windows, Mac, UNIX, Linux and Citrix support and supporting XPS, Microsoft Vista™'s new XML paper specification, the Emperon™ technology is compatible with virtually any infrastructure. Its universal driver interface for both PCL and PostScript means extra convenience and ease of use.

→ Perfect quality

Working with Konica Minolta's proprietary Simitri® toner, the bizhub 361/421/501 deliver a great print quality. This unique polymerised toner features tiny, uniformly shaped particles to achieve its excellent results. Documents benefit from razor-sharp text and finest lines as well as a highly durable print finish.

→ Advanced scan & fax communication

Scanning streamlines the distribution and sharing of information. The bizhub 361/421/501 provide scan to email, FTP, SMB and user box, with scan formats including multi-page PDF, JPG and TIFF. At the same time all three impress with versatile fax capabilities that include Digital Fax and Digital Store; Internet Fax to send and receive fax data as e-mail attachments; and IP Fax enabling direct faxing with other bizhub devices on the Intranet. Various security features make all fax communication safe and confidential.

→ Configurations

→ Convenient box functionality

With Konica Minolta's unique User Box* approach the storing and managing of information on the bizhub 361/421/501 becomes truly efficient. User boxes can be set up with flexible access rights and defined as public, for group use or private; and passwords are easily assigned where required. In addition the PageScope Box Operator provides direct access from the PC to the stored documents, while multi-file preview enables fast searches via thumbnails.

→ Essential security & access control

Addressing the vital question of security, the bizhub 361/421/501 comply with the latest international security standard ISO 15408 EAL3 and are equipped with a complete security package to keep critical information safe, prevent unauthorised access to the company network and make tampering with confidential data impossible. Of particular note is the biometric authentication option: finger vein authentication works with images of finger vein patterns captured by scanning the finger. Alternatively, authentication by non-contact IC card is also available.

The bizhub 361, bizhub 421 and bizhub 501 take the professional approach to every-day office tasks and equip modern businesses with the skills to win!
